- Any other medically necessary costs required by the hospital for inpatient hospital services, outpatient hospital services or in an Intensive Care Unit

### Deductibles

Each policy is subject to a deductible selected by the insured of \$5,000 or \$10,000 USD per insured, per policy period.

### Transportation

Business class airfare covered at 100% when pre-authorized. Alternative transportation arrangements are also possible and are described in the policy.

### Meals and accommodation

\$250 USD per person per day, to a maximum of \$2,500 per person per occurrence when pre-authorized.

### Travel companion

An insured person is permitted one family member or friend to serve as travel companion, where a medical practitioner has certified that the insured person is incapable of travelling without assistance.

### Medical underwriting and exclusions

Pre-existing medical conditions may not be covered by ELITE U.S. Healthcare™. Because the plan is medically underwritten, certain risk factors may result in additional and specific exclusions of conditions that have been known to result from them. Some risk factors may simply result in an additional premium for the added risk.

## Your decision making partner

---

ELITE U.S. Healthcare™ Insurance provides access to a network of American and Canadian healthcare facilities including hospitals and clinics with a proven reputation in the treatment of serious medical conditions. We have chosen these facilities on the basis of national rankings, medical specialties, and access to international services. A client may receive up to three recommendations prior to making a treatment decision.

While this network will meet all medical needs, we are also open to client preferences. Should a client prefer a different medical facility, we will make the necessary arrangements (within benefit limitations) to access the preferred facility. We will provide two alternative options for comparison so that an informed decision can be made.
